Managing ballots before the vote

According to Art. 49 par. 3 of the Election Code, printed ballots are kept at the local District Electoral Council and are submitted to the Polling Station Electoral Bureau in the eve of elections, and an act of acceptance is signed.

DEC no. 5 in Basarabeasca had more ballots than the number of voters on voter lists, namely 249 more ballots than voter for PSEB no. 7 and 8 more ballots for PSEB no. 2. The DEC in Leova issued 300 more ballots for PS no. 8 in Leova and 200 more ballots for PS no. 18 in Cazangic.

In one case, the number of issued ballots was smaller than voters included in the voter lists, and namely at PS no. 18 in Bisericani (Glodeni), which received 8 ballots less than the calculated number of voters.

According to Art. 46 par. 7 of the Election Code, if a candidate withdraws from the race or their registration is cancelled after ballots had been printed, in the ballots, next to their name, the electoral bureau of the respective polling station will apply the “Withdrawn” stamp.

There were 2 cases when the “Withdrawn” stamp was not applied next to candidate PP “Patria”, and namely at PS no. 85 in Chisinau and PS no. 42 in Leuseni (Hancesti).

On E-Day, an insufficient number of ballots were registered at PS no. 115 in Chisinau. At 19.26 hours, all the ballots had been exhausted, and voters were instead issued voter certificates and were instructed to go vote in other PSs. The reason for this was that 1300 ballots were stamped with the “Cancelled” stamp instead of the “Withdrawn” stamp next to PP “Patria”.

Absence of ballots for persons with impaired vision was found at PS no. 128 in Chisinau. When a citizen requested such a ballot, PSEB members could not satisfy the request of the person with impaired vision.

Issuing voter certificates on 29 November 2014

According to Art. 39 par. 7 of the Election Code, if the voter changes their domicile or residence between the date of compilation of voter lists and E-Day, the electoral bureau of the PS of their previous address issues the respective voter a voter certificate based on their ID document and respective request.

DEC Drochia issued 600 voter certificates to voters. 11 PSs in Drochia and one PS in Soroca could not issue certificates to all those who requested them, as there were insufficient respective forms.

Ensuring PS infrastructure on 29 November 2014

According to p. 5 and 7 of the CEC Instruction on ensuring the infrastructure of the polling station, when establishing the location of the PS preference will be given to premises located on the first floor of buildings found in accessible public areas so as to facilitate access to the elderly and disabled persons; premises where PSs are organized must have working communications, including electronic communications, power supply, sanitation facilities, fire extinguishers, and marked emergency exits.

On 29 November 2014, at least 24 PS in 4 DECs (Sangerei, Floresti, Rascani, and Drochia) did not meet the respective arrangement conditions.

There was insufficient lighting at 2 PSs in CE Sangerei.

There were no safes for keeping electoral documents at PS no. 49 in Valea Radoaiei (Floresti), PS no. 70 in Grasenii (Ungheni), and PS no. 15 in Dobrusa (Soldanesti).

There was also no heating in 9 PSs in Rascani and 11 PSs in Drochia.

Opening of polling stations

According to Art. 50 of the Election Code, voting takes place on Election Day, between hours 07.00 and 21.00. Under Art. 55 par. 1 of the Election Code, on E-Day, at time 07.00, in the presence of at least half of PSEB members, the chair of the PSEB checks the ballots boxes, seals them, checks the voter lists, ballots, stamps, and prepares a protocol in 2 copies. The protocol is signed by all present PSEB members and one copy is inserted into the ballot box, after which the PSEB chair calls the voting open.

At least 2 PSs in Basarabeasca and Drochia opened with a delay of up to 55 minutes. At least 8 PS in 7 electoral districts (Telenesti, Anenii Noi, Basarabeasca, Chisinau, Ialoveni, Nisporeni, Floresti) opened with a delay of up to 20 minutes. At least 14 PSs in 4 districts (Straseni, Hancesti, Nisporeni, Sangerei) opened with a delay of up to 10 minutes. In 2 other PSs, the vote opening procedure was also violated, and voters started casting their votes as early as 06.55 at PSs no. 97 and 256 in Chisinau.

Violations of the PS opening procedure were found at PS no. 32 in Mihaileni (Briceni) – insufficient number of PSEB members present at the opening; PS no. 155 in Chisinau – PS opening protocol inserted into the ballot box too late, at 08.15; at PS no. 29 in Chisinau, where the PS opening protocol did not contain the number of ballots received from the DEC.

Ensuring PS infrastructure on E-Day

According to p. 5 and 7 of the CEC Instruction on ensuring the infrastructure of the polling station, when establishing the location of the PS preference will be given to premises located on the first floor of buildings found in accessible public areas so as to facilitate access to the elderly and disabled persons; premises where PSs are organized must have working communications, including electronic communications, power supply, sanitation facilities, fire extinguishers, and marked emergency exits.

Failure of cell phones and line phones was registered at PS no. 14 in Calarasi.

There was no heating in at least 7 PSs: PS no. 40 in Salcuta, Causeni, PS no. 26 in Clisova, PS no. 52 in Pelivan (both in Orhei), Ivanovca, Iserlia, Abaclia (Basarabeasca), and PS no. 12 in Bravicea (Calarasi).

There were power outages at 7 PSs from Chisinau, Floresti, Drochia, and Dubasari (4 PSs).

At least 4 PSs were not equipped with ramps to facilitate access for disabled persons: PS no. 66 in Seliste, PS no. 77 in Curchi, PS no. 49 in Morozeni (all in Orhei), and PS no. 10 in Bahmut (Calarasi).

There was insufficient light outside the entrance to PS no. 215 in Chisinau.

According to p. 14 of the CEC Instruction on ensuring the infrastructure of the polling station, each PSEB will receive 2 laptops connected to the Internet, on which, on E-Day, operators will check ID data of voters in the State Voters' Register to register their participation at the voting.

Internet connection failed in at least 42 PSs in 13 electoral districts (Causeni - 1 PS, Ialoveni - 1 PS, Balti - 5 PS, Falesti - 1 PS, Cahul - 3 PSs, Glodeni - 1 PS, Soldanesti- 2 PSs, Straseni - 1 PS, Chisinau – 20 PSs, Sangerei – 2 PSs, Nisporeni - 1 PS, Floresti - 1 PS, Drochia - 3 PSs).

Laptops' malfunctioning was recorded at PSs no. 212 and no. 113 in Chisinau.

The laptops provided to PS no. 16 in Straseni did not have access to the soft program, and had to be replaced.

Malfunctioning of the State Voters' Register was found at all the PSs in Basarabeasca, Edinet, Falesti, at PS no. 1 in Donduseni, PS no. 63 in Zarnesti, PS no. 6 in Camenca (both in Glodeni), PS no. 62 in Secareni, PS no. 64 in Cornesti, and PS no. 44 in Mereseni (all Hancesti), and PSs no. 92, 94, 254, 264, 217, 219, 227, 231, 208 and 234 in Chisinau.

According to p. 23 of the CEC Instruction on ensuring the infrastructure of the polling station, ballot boxes must be sturdy / have an extended durability to be used during at least 3-4 election cycles.

In at least 2 PSs (PS no. 1 in Cahul and PS no. 9 in Basarabeasca), the ballot boxes were cracked.

According to p. 26 and 27 of the CEC Instruction on ensuring the infrastructure of the polling station, ballots boxes are secured by sealing. The stationary ballot boxes and the mobile ballot boxes shall be sealed with 4 and, respectively, 2 self-locking collar seals. The code allied on the seals will be included in the PS opening protocol. The seal will contain the CEC inscription and will be followed by a 6-digit number, which starts at 0000001 and goes on accordingly.

In 10 polling stations, there were issues with the use of seals provided by the CEC. At PS no. 1 in Straseni, PS no. 86 in Chisinau, and PS no. 7 in Alexandreni (Sangerei), the seals broke down during the sealing of the ballot boxes. In 4 PSs in Chisinau, PSs no. 81 and 103, in one PS in Orhei and one PS in Floresti, the sealing of ballot boxes proved problematic, because the seals did not fit the ballot boxes. Because of this issue, the ballot boxes at PSs no. 81 and 103 in Chisinau remained unsealed, at PS no. 147 in Chisinau, the ballot box was sealed with panache, at PS no. 3 in Orhei, the ballot box was sealed by sticking stamped pieces of paper on each of the four corners. PS no. 22 in Gradiste (Cimislia) was short on one seal for the main ballot box.

According to p. 19 of the CEC Instruction on ensuring the infrastructure of the polling station, voting booths must be arranged in such a way that their opened side must face the unoccupied wall of the room, at a distance of no less than 1 meter. The screen in front of the booth must face the PSEB members.

Improper arrangement of voting booths that allowed observation of the voting choice of the voters was found in 4 PSs: PS no. 25 in Halahora de Sus (Briceni), PS no. 47 in Congaz UTAG, PS no. 17 in Ciadir Lunga, and PS no. 12 in Orhei.

The voting was conducted in small and improper premises at PS no. 35 in Noroceni, PS no. 77 in Curchi, and PS no. 54 in Peresecina (all in Orhei). In these PSs, it was hard to conduct the electoral process and observation.

According to p. 21 of the CEC Instruction on ensuring the infrastructure of the polling station, the PS must have at least two stationary ballot boxes of a volume of 80 and/or 45 liters, and a mobile ballot box with the volume of at least 27 liters.

Because there was only one ballot box at PS no. 62 in Zarnesti (Cahul), by 14.00 hours, it was full with ballot papers.

AT PS no. 36/66 in Svetlii, UTAG, stamps in two voting booths lacked inkpads.

Voter lists

According to Art. 39 par. 1 of the Election Code, voter lists, compiled based on the data in the State Voters' Register, are lists that include citizens with the right to vote who reside or have their domicile in the area covered by the respective polling station.

In at least 10 PSs there were shortcomings connected with the absence of voters from the voter lists: PS no. 16 in Soldanesti, PS no. 24 in Slobozia-Chiscareni, PS no. 36 in Marasesti (both in Sangerei), PS no. 3, 5, and 8 (all in Leova), PS no. 22 in Nicolaevca (Glodeni), PS no. 2 in Cimislia, PS no. 8 in Abaclia (both in Basarabasca), and PS no. 4 in Drochia.

According to p. 14 of the CEC Instruction on ensuring the infrastructure of the polling station, each PSEB will receive 2 laptops connected to the Internet, on which, on E-Day, operators will check ID data of voters in the State Voters' Register to register their participation at the voting.

All PSs in Moldova experienced a malfunctioning of the Electronic Register, which caused lines.

According to Art. 6 of the Election Code, the voting in elections and/or at referenda is secret, to avoid the possibility of influencing voters.

According to Art. 54 par. 1 of the Election Code, voters fill the ballots only inside the voting booth to ensure secret voting. The voters who cannot fill in the ballot on their own are allowed to invite another person in the booth, with the exception of PSEB members, representatives of candidates and other persons authorized to attend electoral procedures. Such cases are marked in a special way in the PSEB report.

In one case, at PS no. 264 in Durlesti (Chisinau), the secrecy of the vote was violated when a person with impaired vision was assisted in their voting by an assistant, the PSEB chairman, PSEB members and 3 observers.
